SUMMARY

I am a Software Quality Assurance Engineer with expertise in manual and automation testing, API testing, and web/mobile application testing. Skilled in designing and executing test strategies, detecting defects early, and ensuring product reliability in Agile environments. My strong frontend knowledge (React, Next.js, JavaScript) enhances effective UI and system validation.

WORK EXPERIENCE

Junior SQA Engineer

March 2025 - Present

DigitalHub Bangladesh Ltd

- Tested multiple web and mobile applications, ensuring smooth functionality, responsiveness, and compatibility across different browsers and devices.
- Designed, created, and executed manual test cases covering UI, functional, regression, and API testing to validate system behavior.
- Identified and reported critical bugs early, reducing production issues.
- Collaborated with developers and designers to resolve issues quickly and efficiently.

Junior Frontend Engineer

June 2022- Sept 2024

API Solutions Limited

- Built fully responsive and user-friendly UIs for IFAD Ecommerce, Motors, and Haefa Hospital web applications.
- Integrated RESTful APIs to enable dynamic content, data submission, and real-time updates.
- Improved page speed frontend optimization
- Reduced UI and functionality bugs by writing clean, reusable, and maintainable React components.

PROJECTS

◆ Manual Testing
