  - JavaScript | Python | SQL
- ◆ Manual & Test Management
  - Jira | Trello
- ◆ Agile/Scrum Methodologies
- ◆ CI/CD & Version Control
  - Git | GitHub Actions | GitLab CI

👤 About Me

I am a Software Quality Assurance Engineer with expertise in manual and automation testing, API testing, and web/mobile application testing. Skilled in designing and executing test strategies, detecting defects early, and ensuring product reliability in Agile environments. My strong frontend knowledge (React, Next.js, JavaScript) enhances effective UI and system validation.

💼 Experience

Junior SQA Engineer
Digitalhub Bangladesh
March 2025 - continuing

Achievements
- Tested multiple web and mobile applications, ensuring smooth functionality across platforms
- Created and executed manual test cases covering UI, functionality, and API layers
- Identified and reported critical bugs early, reducing production issues
- Collaborated with developers and designers to resolve issues quickly and efficiently

Junior Frontend Engineer
API Solutions Limited
June 2022- Sept 2024

Achivments
- Built responsive UIs for IFAD Ecommerce, Motors & Haefa Hospital apps
- Integrated REST APIs for dynamic content and forms
- Improved page speed frontend optimization
- Reduced bugs by writing reusable, maintainable code
